AUTOCROSS

Course Description: A short rolling start to a right hand turn, (1) then an uphill straight of 270' (2) to a right - left offset, on camber (3) in 120', then 180' (4) to a right hand 180 degree, 50' radius turn (5) then 50' (6) to another right-left offset, off camber (7) in 135' then 400' (8) with a 4 cone slalom on 60' centers, then downhill to a right hand turn (9) which will bring you to the first right hand turn, repeat the uphill straight, offset, straight, 180 degree turn, second offset, then to the finish line.

The distances are approximate and the two lap course will be about 1/2 mile long. We estimate times to be in the 50 to 60 second range.
