HAILIE DEEGAN

AL JONIEC

STEVE SAXTY

WILLIE STROPPE

Hailie Deegan

Ford Performance Driver, Hailie Deegan, is making an appearance on Saturday, June 5th. To date, Hailie Deegan is the ONLY female ever to compete in the Lucas Oil Off Road Series and in 2016 she was named the circuit's Driver of the Year. Deegan is currently competing full-time in the NASCAR Camping World Truck Series, driving the No. 1 David Gilliland Racing Ford. Deegan started racing at the age of 8 after watching her dad, Brian Deegan (professional freestyle motocross rider), race & ride pretty much anything with an engine!

Al Joniec

Al's passion for racing cars began at an early age. While racing a car sponsored by the dealership where he worked, his wins were noticed by Ford Motor Company. They selected him out of eight people in the nation to be fully sponsored by their racing program in the 1960s. He won multiple national championships and set racing records while continuing his passion to learn as much as he could about the industry. Even after Ford withdrew from racing in 1971, Al continued building engines and drag racing. Al will be joined by author Charlie Morris in a tent on Row IO (see "Al Joniec" on map).

Charlie Morris

Charlie's two most recent books, *Detroit Muscle* and *The Adventures of Al Joniec, Ford Drag Racer*, address the many Fords of the 60's and 70's in some detail. His previous book, *How To Rebuild Big Block Ford Engines*, is being re-issued with an entire chapter on the Boss 429 which has been included to replace the FE series chapter. It includes information on never-before-seen experimental racing parts, developed by Mickey Thompson, along with current rebuild tips and parts sources. His first book, *Total Performers*, covers the drag racing accomplishments of the Boss engines and the 428 and 429 engines that powered many Mustangs.

Steve Saxty

Former Ford product designer and author of three books on Ford, Steve Saxty, will give talks on three eras of "Secret Fords." He worked on this unique project with Ford of Europe to uncover decades-worth of cancelled cars, one-offs and prototypes. Most of these vehicles have never been seen or are the stuff of legend. Steve will unveil – for the first time – these cars in his new book *Secret Fords*. This unique project required access from the highest levels of Ford bosses to allow designers and engineers to tell stories of head-spinning machines that were sometimes rumored, but often never seen.

Willie Stroppe

Willie Stroppe's first job was creating the Bronco "catalog chassis" (on display with the Stroppe Reunion) that appeared in catalogs and auto shows. He was an integral part of the Stroppe off road racing effort in the late 60s/early 70s. After serving his country in the Navy, he raced Jim Loomis' propane-powered Bronco, nicknamed "the Stove." Bill Stroppe & Son built vehicles for the "Great Balloon Chase," a Ford promotional event that has an entire chapter in *BOSS, The Bill Stroppe Story*. Willie helped build the Balloon Chaser Bronco Ambulance (on display with the Stroppe Reunion) and he ran a NASCAR Winston Cup Team in the late 1990s. Stroppe & Son also maintained Ford's West Coast test fleet and Willie helped with many new vehicle introduction events with the motoring press.

Todd Zuercher

Author Todd Zuercher joins us from Arizona for book signings and a walking tour of the Stroppe Reunion Display. Todd is the author of CarTech's best-selling book *Ford Bronco: A History of Ford's Legendary 4x4*. Todd has been a Bronco enthusiast for nearly four decades and brings a wealth of accumulated knowledge, documentation and research that details the history of these remarkable vehicles. Todd is also a features/history editor at Bronco Driver Magazine.

FEATURED VEHICLE DISPLAYS

Each year we try to assemble a collection of vehicles that showcase some of the best examples from Ford Motor Company. Visit **Building T** to see the **50th Birthday of the Big Horse Mustangs and the Pinto, and TV and Movie Cars in the Comic Car Con Display**. Visit each display for a limited edition sticker pictured above.

The Big Horse Mustangs (1971-1973) were

undeniably some of the biggest, heaviest and most “styled” Mustangs ever selling around 410,000 over their three years.

In 1971 Ford Motor Company introduced their first subcompact vehicle in North America, the Ford Pinto and Mercury Bobcat. Made in three body styles, a sedan, a hatchback, and a wagon, there were over 3 million made between 1971 to 1980.

QUALITY CRAFTSMANSHIP - AFFORDABLY PRICED

At Carlisle Customs & Classics we take pride in helping people make their dreams into realities. The restoration and customization process can be very challenging so we use our 30+ years of experience to benefit customers by helping to create an organized, efficient, and honest system built around customer satisfaction. We have also simplified the process by providing free estimates, developing design concepts, and have created a customer "wish list" to ensure an efficient build process and outstanding final products. CCC also provides bi-weekly invoices and picture updates via email that allow customers to actively participate from the convenience of their home.

Today, RockAuto.com ships thousands of parts, from hundreds of manufacturers, to millions of customers all over the world. From fluids and filters for your daily driver, to brakes and ball joints for your classic, to traditionally "dealer only" parts like OE style wheels and switches, RockAuto.com has All The Parts Your Car Will Ever Need at reliably low prices.

Visit RockAuto.com to order auto parts online 24 hours a day, 7 days a week and have them conveniently delivered to your door.
