## PENNSYLVANIA TURNPIKE

The Pennsylvania Turnpike Commission, an independent transportation agency that operates in the Commonwealth of Pennsylvania, opened Oct. 1, 1940. It celebrates more than 80 years of operations, and over those eight decades it has received nationwide acclaim as an engineering marvel.

The Turnpike established the national standard for superhighway design and construction more than 16 years before the first U.S. interstate highway. When America's first super-highway opened in 1940, the Turnpike ran 160 miles between Irwin, PA and Carlisle, PA. Today, the PA Turnpike stretches more than 550 miles, triple its original length.

It continues its legacy of innovation in the ground-transportation industry with a modern-day mission to operate a safe, reliable, customer-valued toll road system that supports national mobility and commerce. Recent advances

include designing and building award-winning facilities and structures; investing in wider and smoother roadways; and providing traveler benefits such as All-Electronic Tolling, innovative smartphone apps, and a dedicated 24/7 customer safety and response team.

The RockAuto catalog is updated daily with parts ranging from brakes and filters for your daily driver, to distributor caps and repair manuals for your classic, to traditionally "dealer only" parts like OE style wheels and electronic components, to collision parts like tail lamps and grilles.

Along with a huge selection, RockAuto offers reliably low prices on the respected brands you know and trust, shipping is fast, and the uniquely helpful catalog is easy to navigate with detailed part information so you can purchase the auto parts you need with confidence.
